INNOVATIONS**

More power, less noise, and even less maintenance: AODES V-Twin engine family 650, 800, 1000cc and integrated rear axle 1000 engine equipped in ATV and UTV of Pathcross and Workcross Series are some of the leading power source in the industry for performance and reliability, which will offers you an answer to every work, recreation, sports and adventure off road situation.

CORE COMPETENCE

AODES

BEYOND ROADS

AODES ATV

PATHCROSS S/L

OVERVIEW

PATHCROSS

525 / 650 / 650SE / 850 / 1000

Our 2025 AODES ATV lineup will give you the confidence to travel anywhere, knowing that you are well-equipped to handle any terrain or obstacle in your way. V-Twin engines in 525, 650, 800, and 1000 cc displacements put all that power right where you want it. Electronic power steering is one of our many standard features that makes even the most difficult trails manageable and long rides enjoyable. Winches are also Standard Equipment from the factory and can be used for anything from navigating terrain to rescuing your friends who have gotten themselves stuck.

| PATHCROSS 525 S/L

EXCEPTIONAL VERSATILITY FOR ALL ADVENTURES

With a powerful 495.3cc single-cylinder engine and a ground clearance of 265mm, the Pathcross 525 is designed to tackle rugged trails and diverse terrains with ease. Its advanced suspension system ensures smooth handling, while the electronic fuel injection maximizes efficiency and performance.

BUILT FOR POWER AND UTILITY

Offering a towing capacity of 160kg and a rack capacity of up to 30kg, the Pathcross 525 is not only powerful but also practical for work and recreation. The model's lightweight yet durable design ensures stability and reliability, making it a perfect companion for demanding tasks and thrilling adventures.

| PATHCROSS 650 S/L

ADJUSTABLE FRONT DIFFERENTIAL SYSTEM & AUTOMATIC REAR DIFFERENTIAL SYSTEM

Do you have to cope with ruts, dirt, hairpin curves, and secluded areas? PathCross's ability to engage both the front and rear differential systems means you can drive with confidence. This improves performance over uneven ground.

MULTI-FUNCTION INSTRUMENT

Vehicle Speed, Engine Speed, total miles, Turn signal (left, right), Headlight (High / Low beam), EPS indicator, ECU, Fuel Level, Coolant Temp, Park indicator, Oil indicator, Battery Indicator and brake failure indicator all integrated.

| PATHCROSS 650SE S/L

MODULAR DESIGNED VEHICLE

The adoption of a modular design idea allowed the PathCross series to be constructed with varying displacements and seat capacity to meet various riding styles and horsepower needs.

ACTIVE EMISSION COOLING SYSTEM (AEC)

The innovative design of the air-conducting tunnel encircling the emission system results in less heat and a cooler, more pleasant ride.

PATHCROSS 850 S/L

3500 LB WINCH: YOUR EMERGENCY RECOVERY SOLUTION

The 3500 lb winch is your reliable partner for emergency situations. Whether you're stuck in mud or snow, its powerful design ensures quick recovery. With easy setup and robust performance, you can tackle obstacles confidently and get back on the road fast. Don't let challenges slow you down!

TAILORED COMFORT: INDEPENDENT TOW ARM SUSPENSION

Enjoy exceptional comfort with our independent tow arm suspension system. Designed for smooth rides over any terrain, this system ensures a comfortable and stable driving experience. Upgrade your driving comfort today.

PATHCROSS 1000 S/L

HIGHER GROUND CLEARANCE, LONGER TRAVEL OF SUSPENSION

Are you looking to conquer more difficult and rough terrains or experience greater thrills? PathCross has a 10" ground clearance and a 9.5" travel suspension, which improves vertical travel and allows you to ride more comfortably and smoothly.

ONE BRAKE PEDAL FOR ALL FOUR WHEELS

The stopping force of the hydraulically actuated, four-wheel DISC brakes is transmitted to all four wheels with a single brake pedal push.

PATHCROSS MUD PRO S/L

OVERVIEW

PATHCROSS 1000 MUD PRO

Based on all normal PathCross top features we developed this PathCross 1000 Mud Pro. Integrated design of top Placed Coolant Expansion Tank, strengthened Chassis Guard, CST 30" Mud Tires, all Four Beadlock Wheels and optional 10" Multi-function LED Head Light this mud pro could perform far better when trail through heavy mud, sand and shallow mudding river.

PATHCROSS MUD PRO S

TOP PLACED COOLANT EXPANSION TANK

This design prevent excessive mud from covering the heat dissipation pads of the coolant tank which will maintain optimal engine cooling performance through seriously challenging terrain.

HIGHER WATER WADING DEPTH

With higher air intake, CVT intake & exhaust, fuel tank vent and waterproof ignition coil PathCross Mud series could wade deeper water than ever.

| PATHCROSS MUD PRO L

ALL FOUR BEADLOCK WHEELS

Planning to take on the most difficult trails? The beadlock wheels feature could perfectly fulfill your needs especially when you trail through heavy mud, sand and shallow mudding river where non-beadlock wheels sometimes may got air leaked and stop working. With all four beadlock wheels your plan of even difficult trails would be safer guaranteed.

28" TIRES

With these 28" Tires you could get a higher ground clearance and a better smoother riding experience.

AODES UTV

WORKCROSS

OVERVIEW

WORKCROSS

525-2/650/850/1000 -3/-6 HV/HVAC

If you are looking for a multifunctional side-by-side vehicle that is capable of satisfying all of your expectations, you should not go any further than our brand-new 2025 WorkCross series. Packed with torque from our V Twin engine options including 525 , 650 , 850 and 1000CC, you won't be left behind. You will find that we are taking you beyond roads by giving you options such as heat and air conditioning, complete doors, under-seat storage compartments that can be removed, and Bluetooth radio options. Because Crew Models come in both 800 and 1000 CC capacities, there is more than enough space for a family as well as your equipment.

| WORKCORSS 525-2

POWER AND PRECISION REDEFINED

The Workcross 525 boasts a 495.3cc single-cylinder, 4-stroke engine with 46Nm of torque at 5800rpm, ensuring peak performance for the toughest terrains. With advanced electronic fuel injection and CVT transmission, it delivers seamless power and efficiency for work and play.

| WORKCORSS 650-3

BUILT TO CONQUER, ENGINEERED FOR COMFORT

Featuring a ground clearance of 285mm and a robust towing capacity of 1760 lbs, the Workcross 650 is the ultimate UTV for heavy-duty tasks. Its double A-arm independent suspension with preloaded, oil-damped shocks guarantees unmatched stability and comfort on uneven ground.

| WORKCORSS 850-3

VARIETY OF MODELS

The platform's modular design allows for the production of six unique vehicles, each tailored to a certain set of demands and preferences. These vehicles range in size from 650 to 1000 cc, and from three to six seats. Whether you're on a vacation with the family or meeting up with a friend, you'll have plenty of options and perks to choose from.

| WORKCORSS 850-6

INTELLIGENT THERMOSTAT

Even in the worst weather, you and your passengers will be comfortable with heating and cooling. Your AODES gives you the most comfortable place to drive and makes driving more fun.

| WORKCORSS 1000-3

PREMIUM DRIVER EXPERIENCE

The interior of the vehicle is totally sealed, and it is equipped with an air conditioning and heating system to make the ride more comfortable on bumpy roads. Even if the window is closed, you can still take in the clean, crisp air that comes from outside.

| WORKCROSS 1000-3 HV/HVAC

REMARKABLE VERSATILITY

Screen serving as the core control hub for multimedia, featuring many applications with multiple functions, such as a Bluetooth connection, offline navigation, and radio. Transcend the standard way of transportation with your riding adventure.

| WORKCORSS 1000-6

OPTIMIZED DESIGNING

The door is equipped with a half-door state and a fully-closed state. The windshield glass lift adopts two modes of manual and electric control. Fully consider various situations when driving.

| WORKCROSS 1000-6 HV/HVAC

STANDARD CONFIGURATION

The front and back windshields are now made of tempered glass and have a new look. The front windshield has a wiper and a defroster so that you can see clearly even on rainy days.

E-WORKCROSS

OVERVIEW

E-WORKCROSS

AODES Electric Workcross, a powerful and eco-friendly UTV designed for both work and play. Built for rugged terrains and demanding tasks, this electric version offers zero emissions without compromising on performance. Whether you're navigating tough off-road conditions or tackling heavy-duty work on the farm, the Electric Workcross delivers smooth, quiet operation with instant torque. Its advanced battery technology ensures long-lasting power, making it a reliable choice for those looking for a sustainable yet robust solution to their outdoor and industrial needs. The future of off-roading and utility has arrived with the Electric Workcross.

| E-WORKCROSS

POWERFUL ELECTRIC MOTOR

The E-WORKCROSS is equipped with a 15kW electric motor, delivering a peak torque of 130Nm, ensuring robust off-road power and exceptional performance.

OUTSTANDING LOAD CAPACITY

With a cargo bed capacity of 454 kg and a towing capacity of 800 kg, the E-WORKCROSS is perfect for transporting goods and towing equipment, making it suitable for both work and adventure.

LIQUID COOLING & LONG RANGE

Featuring advanced liquid cooling technology to maintain optimal motor temperatures, paired with a 105Ah lithium iron phosphate battery, the E-WORKCROSS offers an impressive range of up to 160 km, ideal for long-distance rides.

E-TRAILCROSS

OVERVIEW

E-TRAILCROSS DUMP BED

The E-TrailCross is a veritable little beast that roams the golf courses. With integrated rear axle motor it proves to be more tough-powerful than others with the same motor watts level. Shaft drive, Front & Rear double A arm suspension and customizable back seat area these all features make this vehicle stand out among all others. Also the original power battery is UL listed.

| E-TRAILCROSS

REMOVABLE DUMP BED

The modular design with the back dump bed area which approves vehicle owner to remove and replace it with back seats for more applications if you have extra rear seats with this model.

SHAFT DRIVE

Compared with chain drive shaft-drive are lower maintenance and running costs, and cleanliness.

BEYOND ROADS

SNOWMOBILE

ALPINECROSS

OVERVIEW

ALPINECROSS 1000

The AODES Alpinecross is built to work confidently even when the temperature is below freezing. Carrying firewood, going on hunting trips, and keeping tabs on the herd are all easy with the powerful 1000CC V-Twin engine. The wide track and large footprint of the vehicle make passage easy in even the deepest snow. The reassuring V-Twin power of 1000 cc should put your mind at ease. With convenient extras like an electric starter, heated handles for the driver and passenger, a large cargo rack, an LED screen, and a speedy hitch, this vehicle can take you places other can't.

FEATURE
